PROFILE

Nine years in business intelligence, data engineering, and applied GenAI across financial services, healthcare, insurance, and retail. Most recently in the BI team at Hong Kong's securities regulator (SFC): data models, ETL/ELT, Power BI, and Generative AI APIs on Vertex AI. Relocated to Tokyo in July 2026. Targeting English-speaking analytics roles at global firms.

SKILLS

- **BI:** Power BI, SSAS, SSRS, dimensional modeling, requirements-to-production
- **Data:** SQL, SSIS, Azure Data Factory, Apache Hive, SQL Server, Oracle, MySQL
- **AI:** Generative AI integration, Vertex AI Vector Search, DataRobot, Python
- **Also:** Splunk, Azure; stakeholder and vendor management

EXPERIENCE

System Analyst (BI / Data & AI) — Securities and Futures Commission Oct 2021 – Jun 2026
Hong Kong · via NewRecs Consultancy · Business Intelligence Team, IT

- Analysed requirements and designed data models for analytics and AI use cases.
- Built ETL/ELT pipelines; developed and maintained BI dashboards and analytical reports.
- Integrated Generative AI into existing systems via APIs; maintained an embedded Vertex AI vector database.
- Managed vendor delivery or built in-house; evaluated BI tools and productionized solutions.

Contract Analyst Programmer — Hospital Authority Oct 2020 – Oct 2021
Hong Kong · via Manpower Services · Artificial Intelligence Systems Team

- Prepared and transformed data for AI model training; designed operational dashboards.
- Converted legacy IBM Informix and SAS programmes into Hive-compatible SQL.

Software Engineer — KBQuest Hong Kong Ltd. Jun 2018 – Oct 2020
Hong Kong · enterprise analytics consulting

- Self-service analytics platforms, ETL, data models, and dashboards for enterprise clients.
- SQL Server upgrades; Splunk operational-intelligence apps; ML models on Azure.
- Clients included Shiseido, CLP Power, SFC, MTR, Octopus Cards, Maxim's Caterers.

Programmer — Hong Kong Life Insurance Limited Nov 2016 – May 2018
Hong Kong

- Developed, maintained, and tested insurance systems; report templates and data support.

CERTIFICATIONS

- Splunk Enterprise Certified Admin (2019)

EDUCATION

- **BSc (Hons) Computing**, minor in Accountancy — The Hong Kong Polytechnic University, 2011–2015
