PROFILE

Enterprise Azure architect with 12+ years in IT infrastructure. Designs and operates global landing zones, cloud security and policy controls, FinOps, and multi-region connectivity (Virtual WAN across US, EU, and SEA) for a global manufacturing group. Hands-on delivery of Azure Virtual Desktop, hybrid migration, and industrial PLM on Azure. Team lead who builds a global Cloud COE.

CORE SKILLS

- **Platform:** Azure landing zone / CAF, management groups, Azure Policy, RBAC, hybrid cloud
- **Network & identity:** Virtual WAN, Azure Firewall, VPN / ExpressRoute, Entra ID, Microsoft 365
- **Compute:** Azure Virtual Desktop, VDI, Windows Server, Active Directory
- **Security & FinOps:** cloud security architecture, policy guardrails, cost management, incident coordination
- **Delivery:** multi-region stakeholder management, cloud migration, COE enablement, vendor architecture review
- **Tooling:** PowerShell, Azure Automation; AWS (associate-level)

EXPERIENCE

Johnson Electric — **Senior Azure Cloud Architect** Jan 2022 – Present

Tokyo (from Jul 2026) · previously Hong Kong SAR · Group Information Security & Azure Cloud Platform

Role path: Senior IT Architect (2022–2025) → Team Lead (2025–2026) → Senior Azure Cloud Architect (2026–)

- Own cloud governance, security/policy standards, and FinOps; align platform architecture with stakeholders across regions.
- Design and operate **global Azure Virtual WAN** across **US, EU, and SEA**; lead **global landing-zone** design (management groups, identity, network, guardrails).
- Implement Azure Policy and cloud security controls; coordinate hybrid integration and cloud migration.
- Deliver **Azure Virtual Desktop** and **Siemens PLM on Azure**; train global IT into a **Cloud COE**.
- Promoted Senior IT Architect → Team Lead → Senior Azure Cloud Architect; relocated to Tokyo in Jul 2026 to lead platform architecture from Japan.

DFI Retail Group (Dairy Farm Group) — **Senior Cloud Engineer** Apr 2020 – Jan 2022

Hong Kong SAR · Group Infrastructure & Azure Cloud Platform

- Hardened Azure and Microsoft 365 security; owned Azure cost management and optimization.
- Migrated country datacenter workloads to Azure; coordinated projects and major incidents.
- Managed the store VDI platform.

KBQuest — **Senior Cloud Infrastructure Engineer** Jul 2018 – Apr 2020

Hong Kong SAR · Microsoft Azure consulting & managed cloud

- Consulting on cloud infrastructure: architecture and security design, hybrid integration, and migration.
- Delivered managed Azure services for enterprise customers.

Compass Offices — **System Analyst** Dec 2017 – Jul 2018

Hong Kong SAR

- Tier-3 remote/onsite support; Azure and Microsoft 365 operations; regional Windows Server, backup, and voice (Deltapath); office/datacenter relocation.

Dimension Data (now NTT Ltd.) — **Customer Services Engineer** (earlier Associate Engineer / Trainee) Jul 2012 – Apr 2017

Hong Kong SAR · Managed services & Microsoft operations

- 24×7 Microsoft AD/Exchange operations and monitoring (SolarWinds, Cisco ACS/Prime); Exchange 2007→2013 migration; datacenter relocation and build-out.

CERTIFICATIONS

- Microsoft Certified: Cybersecurity Architect Expert (Aug 2024)
- Microsoft Certified: Azure Security Engineer Associate (Aug 2024)
- Microsoft Certified: Azure Virtual Desktop Specialty (Jul 2024)

EDUCATION

- **BSc Computing and Networking**, Hong Kong Metropolitan University (Open University of Hong Kong), 2014–2018 (part-time); **HD Systems Development and Administration**, IVE, 2009–2012
